Serial No. 12

BRIEF ABSTRACT OF LETTER.

Repeats his request for the sub. division of the Udewar Estate now under Govt. management into 4 equal divisions and giving one of those parts with the proportionate liability to Govt. or for leaving the estate wholly under his management with entire liability.

NOTES AND ORDERS.

2.

Attention is invited to his previous^x petition where the circumstances of his case are fully set forth. In reply to that petition, he was given an endorsement to repress his case to the Dy. Commr in the first instance. He has

accordingly made a statement of his case to the Dy. Commr.

The S.B. sent for all the 4 brothers and directed them to execute a fresh mortgage deed in favor of Govt. For this, the first two brothers, Basavegowda & Dyavegowda having signified their consent, executed a fresh deed; but the Petitioner & another did not and alleged that they could not so execute a second mortgage deed unless a partition of their properties ^{is effected} ~~is effected~~ ~~in the~~ ~~possession of~~ their respective shares defined. The S.B. has taken a note of these representations but did not favor them with an endorsement when that was prayed for.

The Petitioner represents that he is in a distressed state of circumstances & that it is difficult for him to secure justice at the hands of the Dy. Commr. He begs that the benign Govt. may graciously be pleased to send for the records of the case & dispose of his prayer on its own merits.

No doubt the S.B. is investigating the case & it would perhaps help the petitioner, if the present petition is sent to S.B. for disposal or report, if necessary.

Submitted with a draft for approval or other orders.

Case. The managing members of the petitioner's family seem to have abused their trust, while the petitioner and another member were minors and brought the family to a bad pass. Much of what the petitioner alleges may or may not be true, but the only thing the Government have to concern themselves with is, whether it is necessary or worth their while to put their finger into the family partition business of the Indwar family. The one grievance which the petitioner, Anugowda, ^{has} been persistently bringing to the notice of the Government ever since 1901, is that at the death of their father, when the family came under the management of the elder members Basavi Gowdan and Dyavi Gowda, the family was possessed of vast moveable and immovable properties and that it did not need to borrow money from the Agricultural Bank at Sathapur and

That the amount, borrowed as well as the income from the coffee estates, during the minority of the petitioner, has not been accounted for and has been misappropriated. The position of government, thus indicated, in brief, is that of a person, who has advanced money to the managing member of a joint Hindu family, some of whom ^{who deny to have received the benefit thereof} are minors, ~~and~~ it won't do for the government therefore, to strictly stand aloof from the family partition quarrel, which, failing an amicable settlement, may safely be expected to find its way to the Civil Courts. The situation of Govt in this eventuality is not a very safe one to contemplate. There seems to be no harm in Govt doing a good turn to a respectable and well to do malnad family by going to ^{its} ~~their~~ help now. Their peculiar situation as its creditor will doubtless enable them to subdue the recalcitrant members and bring about the partition amicably.

The joint bond, would not then I believe, be difficult to obtain. A little exercise by the Deputy Commr of the sympathetic spirit, with which Mr. Devaraj was wont at the conciliating work, would bring about the re-establishment of harmony in the family besides achieving the purpose of the Govt.

With the debt due to Government is liquidated the Government cannot divert itself of the management of the estates. ~~Neither~~ ^{Neither} it is practicable to divide the estate, nor expedient for the Government to go into the family disputes of relations which are of a complicated nature and assume the functions of a court. The adoption of conciliatory measures for bringing out about an amicable settlement, as suggested by the Superintendent in his note, ^(if it could be secured) is no doubt very desirable, but it is equally doubtful whether any good will result therefrom. There is reason to apprehend that such a course may be taken advantage of by the parties concerned and make them

assume a defiant attitude which may
materially affect the prestige of govern-
ment.

Orders are solicited as to whether
the petition should be forwarded to the O.C.
for report before presenting the petition
an endorsement.
